Job Opening: Student Assistant (SHK/WHK)

To support the development and maintenance of the open-source software package **Tigramite** (https://github.com/jakobrunge/tigramite), we are looking for a motivated student assistant.

Typical tasks include:

- Maintaining and developing the Python package Tigramite
- Supporting code documentation and unit testing
- Responding to GitHub issues and handling pull requests
- Assisting in software refactoring and modularization
- Contributing to example notebooks and tutorials

Job details:

- Hourly wage: €13.98 (without bachelor's degree), €14.59 (with bachelor's), €19.81 (with master's)
- Working hours: 8–19 hours per week (flexible)
- Contract duration: 1 year, with possible extension
- Start date: as soon as possible

If you are interested in contributing to cutting-edge AI and causal inference software, we look forward to your short application or any questions you may have.
